Audiophile sound. High-end headphones.

The true-to-life, unadulterated sound of the audiophile headphones will transport you into another world. You will feel as if you were in the middle of a concert hall. Lean back and enjoy.

HD 800 The HD 800 are individually hand-crafted top-class headphones that set new standards. The pure, spatial sound cannot be beaten in terms of detail and natural tones.

- Large, circular transducers, the largest on the market
- Handcrafted ear pads, made of high-quality microfiber fabric
- High precision headphone connectors
- Awards:
 - EISA Award 2009
 - BBC Music Choice Award 06/2009
 - Accessory of the Year, Hi-Fi Plus, 05/2009
 - T3 Hot 100

HD 650 With their hand-selected and highly optimised magnet systems for each pair, these open, dynamic hi-fi headphones belong to the premium top class.

- Extremely detailed playback with high pulse fidelity
- Absolute precision and lifelike reproduction
- High quality titanium/silver finish
- Awards:
 - Golden Ear (Audio 2009, 2006, 2005)
 - Five stars (What Hi-Fi? 02/2004)
 - Best Buy (Hi-Fi Choice 11/2008)

HD 600 You will experience a particularly detailed sound with these open, dynamic hi-fi headphones. The powerfully reduced total harmonic distortion (THD) assures an extremely pure sound.

- Exceptionally natural, spatial and accurate sound
- High-quality, open metal mesh earpiece covers
- Kevlar-reinforced, detachable OFC copper cable

Home entertainment. Wired headphones.

The wired stereo headphones allow you to experience your favourite music with greater intensity than ever before. And a lot more comfortably, too: padded headbands and soft ear pads assure excellent comfort.

NEW: HD 598 These open, dynamic stereo headphones belong to the very best in home entertainment. Their components enable the greatest pulse fidelity and precise linearity.

- E.A.R. sound channelling technology
- Extremely comfortable velour ear pads
- Long life due to easily replaceable parts
- Stunning high gloss wood burl finish

NEW: HD 558 The HD 558s are open, dynamic high-end headphones for home use. The Duofol membranes and surround reflector ensure a clear and spatial sound.

- E.A.R. sound channelling technology
- Extremely comfortable velour ear pads
- Extremely spatial sound reproduction
- Surround deflector for audiovisual entertainment

NEW: HD 518 Built for the highest demands: because of the Duofol membranes, these open, dynamic stereo headphones produce extremely intense rock and pop music.

- E.A.R. sound channelling technology
- Extremely comfortable, soft, crackle-free ear pads
- Long life due to easily replaceable parts

Home entertainment. Wireless headphones.

Anyone who wishes to enjoy their freedom, without foregoing intensive sounds, will find Sennheiser's digital and analogue wireless headphone systems the ideal solution. Long battery life, up to 100m reception and outstanding playback are the features of these headphones. Additional headphones can be purchased separately.

RS 180 These open wireless headphones with digital transmission technology provide an extremely detailed, pure sound.

- Balance and automatic level controls
- Transmitter also functions as easy-charge cradle and docking station
- Includes multi-country charger, 2 AAA rechargeable batteries

RS 170 The RS 170 are closed, digital wireless transmission headphones, distinguished by their powerful and detailed 3-D cinema surround sound.

- Headphone operating time: approx. 24 hours
- Transmitter also functions as easy-charge cradle and docking station
- No set up required, just plug and play!

RS 160 These closed, digital wireless transmission headphones provide high-volume, bass-driven sound. The compact transmitter fits into any bag.

- Headphone operating time: approx. 24 hours
- Digital Volume Control with Mute Function
- Use on the move, can serve up to 4 pairs of headphones

RS 120 The analogue transmission wireless stereo headphone system RS 120 consists of open headphones that deliver a transparent and balanced sound as well as a transmitter.

- Headphone operating time: approx. 25 hours
- Lightweight & comfortable, Ideal for modern music & TV
- Includes 2 AAA rechargeable batteries

RS 110 These open, analogue wireless headphones offer the perfect entry to experiencing wireless sound. Rich bass included.

- Headphone operating time: approx. 25 hours
- Manual tuning, long battery life
- Includes 2 AAA rechargeable batteries

Home entertainment. TV headphones.

Undisturbed television enjoyment – not a problem with the TV sound systems. You can set your personal preferred volume on the headphones or the cable and freely move around your living room, without worrying about disturbing anyone else.

SET 840 TV is an RF stereo TV listening system that is ideally suited for wireless listening in your house or in your garden. Whether you are watching a TV program or listening to sophisticated classical music, Set 840-TV is sure to provide excellent sound within a radius of 100 m.

- Headphone operating time: up to 9 hours
- Ultra lightweight, easy set up and operation
- Includes 1 BA 300 battery, 2 pairs of replacement earpads

HD 62 TV The strength of these closed stereo headphones lies, aside from their comfort, in their strong shielding from ambient noise.

- Extra-long connection cable: 6 m
- In-line volume control, can set volume separately for the left and right channels
- Useful for impaired hearing

HD 30 TV The HD 30 TV are elegant, open stereo headphones for long TV evenings. Their extra-light construction makes them extremely comfortable.

- Extra-long connection cable: 6.2 m
- In-line, independent volume control for the left and right channel
- Balanced, clear reproduction of the TV sound

Portable entertainment. Music.

A dynamic, balanced sound and their varied range of applications distinguish these classic, portable headphones and earphones. The designs are equally varied. Take your pick.

OMX 980 The OMX 980 are top-class portable hi-fi clip-on ear-hook style earphones. The reinforced, elegant design provides an extremely comfortable and secure fit.

- Neodymium magnets for a powerful, precise sound
- Cutting-edge design and hi-fi audio quality
- Integrated volume control
- Includes in-flight adaptor and case

CX 980 The neodymium magnets of these ear-canal phones assure a natural, balanced sound. A broad range of exchangeable ear adaptors enables custom sound tuning.

- Cutting edge design
- Patented airline adaptor
- Integrated volume control
- Includes ear adaptors, pouch, wax guards, cleaning tool, case, in-flight adaptor

MX 980 These high-quality hi-fi earphones provide balanced, detailed sound on the move.

- Sophisticated, metal-crafted in-ear design
- Neodymium magnets for a powerful, precise sound
- Integrated volume control
- Includes carrying case, cable clip and in-flight adaptor

EXPRESSION LINE

MX W1 The classy MX W1 are portable and completely wireless stereo ear-canal phones. The carrying case includes a battery charging function.

- Headphone operating time: approx. 4 hours
- Hi-fi wireless in-ear (twist to fit) design
- Includes carrying case and charger
- Awards:
Editor's choice award, Popular mechanics, EISA Award 2008
European Headphones 2008-2009

OCX 880 These ear-canal phones with flexible bands fit especially securely and comfortably on and in the ear. They deliver precise and clear stereo sound.

- Premium ear-canal headphones with adjustable ear hooks
- Integrated volume control
- Includes ear adaptors, practical carrying case, ear wax guards, pouch and cleaning tool

CX 880 These ear-canal phones have a high degree of shielding from exterior noise to allow you to enjoy a detailed, natural stereo sound.

- Lifelike stereo sound and stylish ergonomic design
- Exchangeable ear-canal adaptors for a comfortable fit
- Integrated volume control and storage pouch
- Includes silicon ear adaptors and ear wax guards

CLASSIC LINE

CX 870 These premium ear-canal phones have powerful passive noise attenuation. This enables the precise, bass-driven stereo sound to come into its own.

- Exchangeable ear-canal adaptors for a comfortable fit
- Contemporary chrome plated parts
- Includes ear wax guards and cleaning tool

MX 880 The MX 880 are in-ear phones that impress through their precise, dynamic stereo sound and whose ergonomic design make even long periods of use a pleasure.

- Integrated volume control
- High performance speaker systems for balanced sound and powerful bass
- Includes cable clip, 3.5mm angled plug with 1.2 m cable

CLASSIC LINE

PX 360 BT High-end collapsible maxi-headphones with exceptional sound quality.

- Closed-back design
- Bluetooth 2.1 digital wireless technology and SRS surround sound
- Single-sided audio cable included

NEW: PX 90 Portable on-ear headphones with powerful bass.

- Open design for natural sound
- Sleek steel headband for durability
- Comfortable and lightweight

PX 210 BT These Bluetooth® wireless mini headphones enable superior listening pleasure with full freedom of movement.

- Wireless transmission using Bluetooth 2.1
- Integrated track and volume controls
- Detachable audio cable
- Bluetooth wireless stereo transmitter available as accessory for optimal performance.

PX 30-II The PX 30-II are open, dynamic mini-headphones that, due to the bass tube and particularly light membrane, deliver a balanced sound.

- Bass tube for rich bass sounds
- Extremely lightweight and comfortable
- Ideal for use with MP3 or CD players

PX 360 High-end collapsible maxi-headphones with exceptional sound quality.

- Closed-back design for privacy
- Includes carrying case

HD 238 Precision In concert with high-quality neodymium components, the outstanding acoustic system of the HD 238 enables the natural sound to come into its own.

- Open, on-ear construction
- Detailed sound reproduction
- Includes carry pouch

PX 200-II The leatherette ear pads and one-sided cable make the foldable PX 200-II an extremely comfortable companion.

- Mini-headphones which seal-out noise, no sound leakage
- Integrated volume control
- Steel reinforced headband. Includes case

HD 228 The closed supra-aural HD 228 doesn't only excel with their excellent bass reproduction, but also with their stylish white or elegant black colour.

- Neodymium magnets for a bass-driven sound
- Closed-back to block out external noise
- Collapse flat with bag, single-sided cable.

PX 100-II The on-ear PX 100-II features natural sound reproduction with powerful bass. Foldable for easy transport.

- Mini-headphones with open construction
- Open design for natural sound reproduction
- Steel reinforced headband. Includes case

HD 218 The HD 218 are closed supra-aural headphones with an attractive design. Thumping bass sounds truly come into their own.

- Neodymium magnets for a bass-driven sound
- Closed-back to block out external noise
- Collapse flat with bag, single-sided cable

NEW: PMX 90 Practical neckband design in a modern style.

- Open design for natural sound
- Comfortable ergonomic design with a secure fit
- Convenient single-sided cable

PMX 60-II The PMX 60-II offers an excellent, balanced stereo sound, exceeding all the usual expectations from neckband headphones.

- Bass tube for rich bass sounds
- Comfortable to wear. Fits any lifestyle
- Ideal for all mobile audio sources such as MP3 players or portable CD players

CX 400-II These premium stereo ear-canal offer excellent passive attenuation of ambient noise. To add to your listening convenience, a volume control has also been integrated into the cable.

- Superior fit in the ear canal
- Integrated volume control
- Includes adaptors, case, cable-winder

CX 300-II These ear-canal phones provide precise and clear stereo sounds with great vitality. They are available in various colours and with a 2.5mm jack.

- Interchangeable ear adaptors for perfect fit
- Block out irritating background noise
- Includes carry pouch

CX 200 Street II Ear-canal phones with an innovative casing that ensures extremely comfortable fit and high passive attenuation of ambient noise.

- Powerful, bass-driven stereo sound
- Excellent value for money
- Includes ear adaptor set (S/M/L)

CX 280 The CX 280 high-performance ear-canal phones have a particularly clear and detailed sound. A volume control unit is integrated into the cable.

- Three ear adaptors for perfect fit
- High performance speaker systems
- Includes cable slider and carry pouch

CX 270 These bass-driven ear-canal phones offer three silicon attachments in various sizes to provide an ideal fit in the ear.

- Cable winder prevents tangles
- Excellent bass response
- 3.5 mm angled plug. 1.2 m symmetrical cable

STREET LINE

MX 470 The LiveBass system enables these ergonomically shaped earphones to provide thumping bass sounds. The ear sleeves fit comfortably in the ears.

- Carrying bag for fourth-generation iPod nanos
- Ergonomic for superior fit
- Cable slider. 3.5 mm angled plug. 1.2 m symmetrical cable

STREET LINE

MXL 570 A clear, bass-driven sound and many extras: the lanyard and a loop for attaching an MP3 player make the MXL 570 a fantastic companion.

- LiveBass system
- Ear sleeves for snug fit
- 3.5 mm angled plug. 0.1 m cable (1 m extension)

STREET LINE

MX 370 These light in-ear phones provide great bass reproduction and a dynamic sound on the move.

- Cable winder prevents tangles
- Ergonomic design for a superior fit
- Includes hassle-free cable slider and pouch

STREET LINE

OMX 180 These earphones with fully flexible ear bands adapt to all ears and the LiveBass system provides rich, bass-driven tones.

- With volume control on the cable
- Fully flexible ear hooks. CustomFlex System
