

THE **iG** 30 BEST GADGETS TO OWN

To celebrate our 30th issue, we've pulled together the top kit that everyone with a gadget fervour should own – how many have you got?

Sennheiser HD-800

£1000

➤ Crafted from aerospace materials, and employing the world's largest headphone transducer, these aren't about privacy – they're about stonking audio. Effortlessly comfortable, they treat music with incredible openness and care. You'll need a high-end system to handle them, but it'll be worth it.
